ISHU RANA

Software Development | AI & Machine Learning

+91-8126432638 | ishuranakanhaiya@gmail.com | GitHub | LinkedIn | Portfolio

SUMMARY

Computer Science undergraduate specializing in AI & Machine Learning, with strong programming and problem-solving skills. Hands-on experience building Python and Flask applications, including an ATS resume scanner and a machine learning prediction app. Passionate about software development, data structures & algorithms, and building efficient, user-friendly solutions.

EDUCATION

Maharana Institute of Professional Studies 2024 – 2028
B.Tech in Computer Science and Engineering *Kanpur, UP*

Jawahar Navodaya Vidyalaya 2023
Intermediate (Class XII), CBSE *UP*

Jawahar Navodaya Vidyalaya 2021
Matriculation (Class X), CBSE *UP*

TECHNICAL SKILLS

Languages: Python, C++, Java
Web Technologies: HTML, CSS, JavaScript, React.js, Vite
Machine Learning: NumPy, Pandas, Scikit-learn, Regression Models
Frameworks / Tools: Flask, Git, GitHub, VS Code, Jupyter Notebook
CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems

PROJECTS

Resume Scanning Tool | *Python, Flask, File Handling, HTML, CSS*
- Built a Python and Flask-based ATS scanner to analyze resumes against job descriptions.
- Implemented file handling in Python to process resumes and compare them with job requirements.
- Designed a user-friendly HTML and CSS interface for interacting with the scanner.

Student Marks Prediction | *Python, Flask, Pandas, NumPy, Scikit-learn, HTML, CSS*
- Developed a machine learning web application that predicts student marks.
- Integrated a regression model with Flask to deliver real-time predictions.
- Designed a clean, user-friendly interface for entering inputs and viewing predictions accurately.

Portfolio Website | *HTML, CSS, JavaScript, React.js, Vite* | Live Link
- Designed and developed a portfolio website to showcase projects, skills, and achievements.
- Built a component-based UI with React.js, with CSS styling and animations.
- Added interactive features using JavaScript, with Vite as the development server and build tool.

ACHIEVEMENTS

- Solved 200+ Data Structures & Algorithms problems on LeetCode.
- HackerRank: Python (5-star), Java (3-star), Problem Solving (3-star).

CERTIFICATIONS

Data Structures & Algorithms with Python – NPTEL Oct. 2026
- Learned core data structures and algorithms and implemented them in Python.

Data Science – NPTEL Apr. 2026
- Covered fundamentals of data science and its applications.

Python Essentials – Cisco Oct. 2025
- Completed Python programming fundamentals.
